DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because the abstract includes the implied phrase "A method and apparatus is provided". Correction is required. See MPEP § 608.01(b).

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Objections

3. Claims 1, 2, 7, 10, 16, 19-25, 30, and 33 are objected to because of the following informalities:

- Claims 1, 2, 7, 10, 16, 19, 20, 23-25, 30, and 33 are objected to because "and combinations thereof" should be changed to --or combinations thereof--.
- Claim 21 is objected to because it appears that claim 21 should depend from claim 17 as claim 16 does not recite separation of the fluids.
- Claim 22 is objected to because it appears that claims 22 should depend from claim 21 as claim 16 does not recite separation of the fluid sample to be able to dump only the contaminated portion into the borehole.

Appropriate correction is required.

Inventorship

4. The request to correct the inventorship of this nonprovisional application under 37 CFR 1.48(a) is deficient because:

An oath or declaration as required under 37 CFR 1.63 by each actual inventor or inventors listing the entire inventive entity has not been submitted.

Conclusion

5. This application is in condition for allowance except for the formal matters indicated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer H. Gay whose telephone number is (571) 272-7029. The examiner can normally be reached on Monday-Thursday, 6:30-4:00 and Friday, 6:30-1:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on (571) 272-6999. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
